

BLUE SPRINGS SCOUT RESERVE RECYCLING AND WASTE

Blue Springs Scout Reserve is on the road to eliminate garbage by October 25th, 2008 with a complete recycling and composting program.

Halton Region has expanded its recycling program as of April 2008

Halton Region has changed its recycling program to include Green Box compost waste and its Blue Box now combines all paper, plastic and tin materials in one box.

Pack it in, Pack it out

As a result Blue Springs Scout Reserve is implementing a Zero Garbage Program to completely eliminate any non-recyclable or non-reusable materials. Which means that if your group brings any of these materials to camp you will have to bring them home with you.

New Compost Bins and Blue Boxes near every Lodge and Campsite

One of the main reasons most people do not recycle or compost is because they say it is too difficult or too much extra work. At Blue Springs we make it easy for you by providing you with easy access to Blue Box containers and Compost Bins. Clear plastic bags are also available if you need them.

If you have any questions or concerns about these upcoming changes please contact the Ranger at pgarofolo@scouts.ca or by phone at 905-299-2070.
